CONTENTS

Tectonophysics Volume 194

Research Papers

A model of granitic melt formation by frictioning heating on shear planes
Frischbutter, A. (Potsdam, F.R.G.) and Hänisch, M. (Dresden, F.R.G.) 1

The use of syntectonic fibres to determine strain estimates and deformation paths: an appraisal
Spencer, S. (Newcastle upon Tyne, U.K.) 13

The effect of gravitational compaction on estimation of vertical salt structure growth
Petersen, K. (Aarhus, Denmark) 35

On the origin of the magnetic fabric in purple Cambrian slates of North Wales
Jackson, M. (Minneapolis, Minn., U.S.A.) and Borradaile, G. (Thunder Bay, Ont., Canada) 49

Horizontal deformation in the Cascadia subduction zone as derived from serendipitous geodetic data
Snay, R.A. (Rockville, Md., U.S.A.) and Matsikari, T. (Zografos, Greece) 59

Strains and structures associated with a terrane bounding stretching fault: the Melones fault zone, central Sierra Nevada, Cailfornia
Paterson, S.R. (Los Angeles, U.S.A.) and Wainger, L. (Solomons, Md., U.S.A.) 69

Two-stage model of African absolute motion during the last 30 million years
Politz, F.F. (Washington, D.C., U.S.A.) 91

Heat flow and heat generation in the Archaean Dharwar cratons and implications for the Southern Indian Shield geotherm and lithospheric thickness
Gupta, M.L., Sundar, A. and Sharma, S.R. (Hyderabad, India) 107

A crustal density model across the Cambay basin, India, and its relationship with the Aravallis
Tewari, H.C., Dixit, M.M., Sarkar, D. and Kaila, K.L. (Hyderabad, India) 123

Indosinian dextral ductile fault system and synkinematic plutonism in the southwest of the Ogcheon belt (South Korea)
Cluzel, D. (Orléans, France), Lee, B.-J. (Taejon, South Korea) and Cadet, J.-P. (Paris, France) 131

Seismic hazard evaluation for specific seismic regions of the world
Tsapanos, T.M. (Thessaloniki, Greece) and Burton, P.W. (Norwich, U.K.) 153

Discussions

Persistent basement wrenching as controlling mechanism of Variscan thin-skinned thrusting and sedimentation, Cantabrian Mountains, Spain
– Comment
Alonso, J.L., Marcos, A. and Pulgar, J.A. (Oviedo, Spain) 171
– Reply
Nijman, W. and Savage, J.F. (Utrecht, The Netherlands) 177

Penninic windows at the eastern end of the Alps and their relation to the intra-Carpathian basins
– Comment
Márton, E. (Budapest, Hungary) and Mauritsch, H.J. (Leoben, Austria) 183
– Reply
Ratschbacher, L. (Tübingen, F.R.G.) and Behrmann, J.H. (Giessen, F.R.G.) 185

Letter Section

Extensional development of Gabo Valley, southern Tibet
Burchfiel, B.C. (Cambridge, Mass., U.S.A.), Chen, Z. (Chengdu, P.R. of China), Royden, L.H. (Cambridge, Mass., U.S.A.), Liu, Y. and Deng, C. (Chengdu, P.R. of China) 187

Book Reviews

The Structure of the Planets by J. Elder—P.D. Lowman Jr 195
Geological Structures and Maps by R.J. Lisle—P.G. Jordan 196

Special issue: Neotectonics (edited by J. Fourniguet and G. Pierre)

Preface iii

High-resolution ^{14}C dating of an uplifted Holocene shoreline in eastern Saudi Arabia
Vita-Finzi, C. and McClure, H.A. (London, U.K.) 197

Some aspects of the recent tectonics in the Strait of Messina, Italy
Montenat, C., Barrier, P. and Ott d'Estevou, P. (Paris, France) 203

North Caribbean neotectonic events: The Trans-Haitian fault system. Tertiary record of an oblique transcurrent shear zone uplifted in Hispaniola
Pubellier, M. (Paris, France), Vila, J.-M. (Toulouse, France) and Boisson, D. (Port-au-Prince, Haiti) 217

Principles of drainage basin analysis from multisource data: Application to the structural analysis of the Zaire Basin
Deffontaines, B. and Chorowicz, J. (Paris, France) 237
Stress field changes in the Rhone Valley from the Miocene to the present
Blès, J.L. and Gros, Y. (Orleans, France) 265
Proposal for classification of fault activity in an intraplate collision setting: Definitions and examples
REGINE Group (Groupe de Réflexion Géologie de l'Ingénieur et Néotectonique): Blès, J.L., Colleau, A., Fourniguet, J. (Orleans, France), Godefroy, P. (Marseille, France), Lenôtre, N. (Orleans, France), Sauret, B. (Marseille, France), Combes, P. (Fontenay-aux-Roses, France), Dubié, J.Y. and Vaskou, P. (Paris, France) 279
A new digital method for analysis of neotectonics applied to the Bonnevaux–Chambaran area, France
Colleau, A. and Lenôtre, N. (Orleans, France) 295

Special issue: Forward and Inverse Techniques in Geothermal Modelling (edited by V. Čermák and H. Sass)
Preface iii
A heat production model of the crust and upper mantle
Čermák, V. (Prague, Czechoslovakia) and Bodri, L. (Budapest, Hungary) 307
Relations between deep temperatures and other geophysical characteristics in Central Honshu, Japan
Bodri, B. (Budapest, Hungary), Iizuka, S. and Hayakawa, M. (Shizuoka, Japan) 325
Geothermal and rheological implications of intracontinental earthquakes beneath the Kanto–Tokai region, Central Japan
Bodri, B. (Budapest, Hungary), Iizuka, S. and Hayakawa, M. (Shizuoka, Japan) 337
Downward continuation of heat flow density data and thermal regime in Eastern Canada
Mareschal, J.C. (Montreal, Que, Canada) 349
The thermal regime in the Jeanne d'Arc Basin, offshore eastern Canada
Correia, A. (Evora, Portugal) and Jones, F.W. (Edmonton, Alta., Canada) 357
Crustal thermal models along East European geotraverses: inverse solutions
Shen, P.Y., Wang, K. and Beck, A.E. (London, Ont., Canada) 363
Temperature field modelling along the Northern Segment of the European Geotraverse and the Danish Transition Zone
Baumann, M. and Rybach, L. (Zurich, Switzerland) 387
Heat flow modelling: a generalized two-dimensional diffusive and convective numerical model for the Exmouth Plateau, offshore Northwest Australia
Swift, M.G. (Canberra, ACT, Australia) 409
